MINISTRY OF FOREIGN TRADE

PUBLIC NOTICE

IMPORT TRADE CONTROL

New Delhi, the 21st April 1970

SUBJECT:—*Issue of import licences for raw materials to the DGTD units engaged in the cable and wire industry during April 1970—March 1971 period.*

No 59-ITC(PN)/70.—Attention is invited to paras 10 to 12 in Part 'A' of Section I of the Import Trade Control Policy (Red Book—Vol. I) for the period April 1970—March 1971, according to which the units engaged in the priority industries are required to apply for licences for import of raw materials and components on the basis of actual consumption of imported raw materials during the specified period.

2. In the cable and wire industry, several problems have arisen owing to the low pipeline stocks with the industry. As far as small scale units are concerned, the requirements are being assessed by a Study Group. In respect of the units borne on the books of DGTD, it has been decided that DGTD units in this industry should submit their first application for raw materials during April 1970—March, 1971 period not later than 15th May, 1970 to meet their requirements of imported raw materials for six months [in terms of paragraphs 10 to 12 of the import Trade Control Policy (Red Book—Vol. I) referred to above] with certificates of

consumption and other documents in the prescribed form and manner, supplemented by the following additional information:—

(a) End products for the manufacture of which the unit holds an industrial licence and the capacity licensed.

(b) Manufacturing activity in which the unit proposes to engage itself in pursuance of the liberalised industrial policy, should be omitted from the present application, and a separate application submitted in this regard in terms of the policy.

(c) Consumption of imported raw materials for each items manufactured, and the production turned out by the applicant unit during the immediately preceding half year, as well as during the best half year in the past three years. (The statement containing this information should be certified by a Chartered Accountant). The full capacity requirement (for six months) in each category of manufacture, together with the imported raw materials required for each item manufactured should also be separately indicated, as per sub-para (e) below. In the case of PVC wires and cables, the nomenclature of the goods produced and their end-use should also be specified in the statement, if copper is used as a conducting material.

(d) Particulars (including value) of import licences for raw materials received during the previous half year, with a statement showing the raw materials in stock, the expected import of raw materials, the probable date of arrival of the expected imports of raw materials, for which orders have been placed, the value for which raw materials imported and in case where the import licences had not been utilised, fully or partially, the reasons for the same.

(e) The requirements of each raw material for full capacity production [up-to 100 per cent of capacity licensed under the industries (Development and Regulation) Act] for a period of six months specifying clearly the requirements for each item of manufacture and the quantity proposed to be manufactured.

3. Units which have already made their applications for April 1970—March 1971 period should also furnish additional information to the DGTD as required in para 2 of this Public Notice, by quoting reference to the import application already made.

4. As the requirements of small scale units engaged in the cable and wire industry are being assessed separately by a study Group, such units should submit their applications for licences in the normal course in the form and manner already laid down in the Import Trade Control Policy (Red Book—Vol. I) for April 1970—March 1971 period, and the provisions of this Public Notice will not apply to such units.

R. J. REBELLO,

Chief Controller of Imports and Exports.
